Vegan Suitability Declaration

Manufacturer:	SYREN
Product:	Bounty SD-296

"Syren has reviewed this product and declares that, to the best of our knowledge, it is compatible with Vegan principles as specified below:

• The product does not contain any intentionally added animal ingredients from the animal kingdom (mammalian, poultry, fish, shellfish, mollusk, insects) or ingredients derived from animals such as dairy, eggs, bee products or animal enzymes. The word «animal» refers to the entire Animal Kingdom, that is all vertebrates and all multicellular invertebrates and includes civet, musk, ambergris, castoreum, ambrettolide, seedlac, shellac and shellac derivatives.

• To the best of our knowledge, without prejudice to any other Syren position and in the absence of a Syren vegan specific audit process, the manufacture and development of the product does not and has not involved the use of any animal product. The word «animal» refers to the entire Animal Kingdom, that is all vertebrates and all multicellular invertebrates and includes civet, musk, ambergris, castoreum, ambrettolide, seedlac, shellac and shellac derivatives.

• Syren strives diligently to minimize cross-contamination from all substances as far as is reasonably practicable Syren does not perform or sponsor any animal testing on fragrance and flavor compounds (mixture of blended raw materials).

• Syren does not conduct Animal testing on fragrance raw materials for the sole purposes of Cosmetics safety assessment.

• Where specifically required by regulation, or requested specifically by a government agency, and where no option for alternative testing exists, Syren will conduct animal testing on fragrance raw materials, after exhausting all other options with appropriate Authorities. Suppliers of Syren purchased raw materials may also conduct animal testing for similar purposes.

• Syren will not sponsor research projects by third party organizations that conduct animal testing as part of their programs. "

This certificate is generated by calculation based on data for ingredients.
The information contained herein is, to the best of our knowledge, true and accurate at the time it is given. It is your responsibility to ensure that the usage of the fragrance ingredients and the levels of such usage are permitted at all times according to the relevant laws and regulations.
