List of Vanillin Containing Compounds

Cashmere flame AVM-501

INCI Name	№ CAS	%
Vanillin	121-33-5	0-1
Ethyl Vanillin	121-32-4	Not contained

1. Fragrances containing vanillin and ethylvanillin may eventually change the color of the finishedproduct from light to dark due to the oxidation of these chemical compounds. This document will help you plan your work with such fragrances in more detail and make the process of creating your product more predictable. We recommend you use a Vanilla Color Stabilizer to fix the color of the finished product.

2. This certificate is generated by calculation based on data for ingredients. The information contained herein is, to the best of our knowledge, true and accurate at the time it is given. It is your responsibility to ensure that the usage of the fragrance ingredients and the levels of such usage are permitted at all times according to the relevant laws and regulations. Detection limit of calculation is 10 ppm.
